

# ACROSS THE RIVER

*Musica e testo di Giuliano Montori*

I came across the river and I've lost my way  
I fell in to the water and forgot my name  
I'm rushing through this world without my map  
There's still a lot of questions I left to ask

When you think to all the times, you've tried and failed  
You feel inside a pain that scars your face  
So you came across the river and you found my shoes  
I'm far away from there, I'm singing my blues

I came across the river and I've lost my pain  
You came across the river but you feel the same  
I came across the river and I've lost my pain  
I'm singing all my songs to change my faith

I came across the river and I've lost my pain ...

I came across the river and I've lost my pain ...

*(assolo)*

I came across the river and I've lost my pain ...
